

Hawkesbury Child and Family facilitated forum

Engaging 'hard to reach' families

A forum for family workers, community workers, children's services workers, health workers, anyone working with families with children of 0-8 years in the Hawkesbury LGA

Families NSW Facilitated Forums Project is a new initiative aimed at supporting and building collaborative practice in working with families with young children, with a focus on prevention and early intervention.

An opportunity to come and share experience and knowledge -

- What do we mean by 'hard to reach' client groups or services?
- How can we work with other local agencies to improve the access and engagement of 'hard to reach' client groups?
- Identify a range of new cross-sector strategies that could be trialed to improve the access and engagement of 'hard to reach' client groups
- Identify at least one step that your own agency / network will take immediately to attempt to improve the access and engagement of 'hard to reach' client groups
